AI AGENCY / COMMERCIAL GROWTH

We position you to close high-value deals.

- High-conversion sales landing pages
- LinkedIn authority (profile, narrative, content strategy)
- WhatsApp / n8n automations for lead capture and follow-up
- Deal funnels that work even when your team is offline
- SEO and messaging built for B2B buyers

We focus on one KPI: predictable, trackable monthly revenue.

ENERGY & CRITICAL MINERALS (B2B)

Direct trading between real supply and real buyers.

- Refined fuels: EN590 (diesel), Jet A-1, D6
- Strategic minerals: lithium, copper, manganese, iron
- Industrial steel and tubular material

We operate under strict CIF and FOB procedures.

We only engage with end buyers, validated mandates or proven asset owners.

No WhatsApp chains. No fairy tales.

- Pricing structure so you stop underselling yourself
- Sales script and closing framework
- Direct path to \$5,000+ USD/month in B2B services

This is execution. Not mindset coaching.
